LIGHT STAND

FITS ALL SUNBLASTER T5HO & LED STRIP LIGHTS

Lights not included

The Universal Light stand from SunBlaster lighting is designed to hold any size T5HO or LED strip light securely above your plants. The universal design allows any height from zero to 40 cm above the plant canopy to be achieved using the included bars, or for more height, the Universal Light Stand accommodates standard 3/4" square metal tubing, available from most hardware stores.

CONTENTS

- 2x 18" Support Bars
- 2x Bases with Anti-skid pads
- 2x Light Grips
- 2x End Caps
- 2x Height adjustment wing nuts

ASSEMBLY

- 1) Remove contents from package.
- 2) Place bases upright and insert the support bars into the base.
- 3) Snap Light grips on either end of your T5HO or LED Strip light. If you are using a T5HO, remove the bulb first for safety.

- 4) Slide the Light grip ends over support bars,
- 5) Use wing nuts to secure Light Grips at the ideal height. Replace bulb.
- 6) Install one end cap on top of each support bar.
